PURE™ Learning

COURSE
LIBRARY

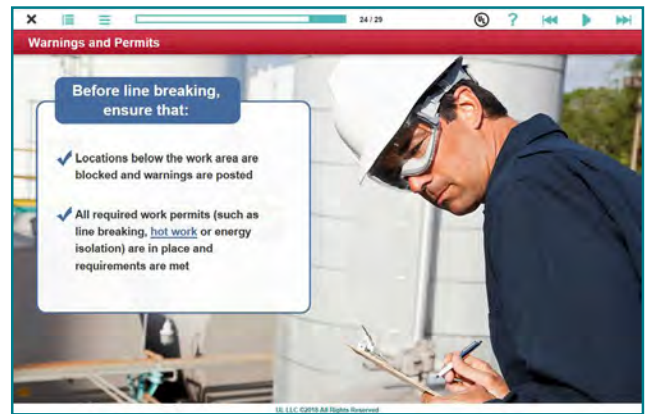

Engaging and Interactive Courses

UL's workplace health and safety course library offers self-paced training that is engaging, consistent and measurable. You and your trainees can access or manage training 24/7 from virtually any Internet-connected computer. All courses are developed by our team of certified safety professionals and adult learning experts, and are continuously updated to address compliance requirements. Our in-house Professional Learning Services team maximizes employee learning and retention with rich multimedia features including:

- High-quality course narration and text
- Superior high-resolution graphics, 3D animation and illustrations
- Challenging learning activities, knowledge checks and post-tests to reinforce and evaluate employee knowledge
- Intuitive course navigation and bookmarking

Our flexible delivery and pricing fit any environment, workflow or budget, and our Course Licensing options allow you to run our content on your learning management or enterprise software system.

All of UL's workplace health and safety courses conform with AICC and SCORM 1.2 requirements. They are certified to run on leading eLearning platforms including LRN Plateau and Saba. We have also successfully implemented our courseware on GeoLearning, Intralearn, KMSI, Knowbase Networks, Oracle iLearn, Pathlore, SumTotal, TEDS and many other platforms. We offer dedicated technical support and expert content development and customization services.

Every course features engaging activities and knowledge checks to reinforce learning and retention.

All courses include intuitive navigation, high-resolution graphics and up-to-date information to create the ultimate learning experience.
